EDUCATION

North Carolina State University – Raleigh, NC

May 2027

M.Sc. Economics (Dual concentration: Data Analytics, Natural Resource & Environmental Economics)

- **Thesis (In Progress):** Identifies the marginal household cost at which proposed NC PFAS surface water regulations become welfare-improving, using contingent valuation and choice experiments cross-validated with revealed-preference housing data; produces a WTP threshold directly actionable for the NC DEQ.
- **Prior Research (Dec. 2025):** Modeled dam-proximity capitalization into housing prices across 747 NC ZCTAs via a quadratic hedonic pricing model, identifying a significant 22.3-mile amenity zone.
- **CEnREP Affiliate & Grad. TA:** Member of the Center for Environmental and Resource Economic Policy at NC State; active participant in the Triangle Resources and Environmental Economics (TREE) seminar series — a joint Duke–NC State forum convening leading scholars in environmental valuation, natural resource economics, and energy policy; Teaching Assistant for capstone undergrad courses.

University of Virginia – Charlottesville, VA

2018

B.A. Economics | Minor: Philosophy

RELEVANT ECONOMIC EXPERIENCE

Economic Development Partnership of North Carolina (EDPNC) – Raleigh, NC

June 2026 – Aug 2026

Research Intern

- Authored the empirical analysis and executive summary benchmarking North Carolina’s clean-energy supply chain against four Southeastern peers using BLS QCEW data and Python — adopted as source material for EDPNC’s forthcoming clean-energy white paper.
- Compiled labor market, tax-incentive, and infrastructure data across the Southeast to support EDPNC recruitment materials and RFP responses.

Veritas Economic Consulting – Cary, NC

Sept 2025 – May 2026

Research Assistant (Part Time)

- Strategic Consulting: Authored a cost-benefit analysis for a Chicago high-rise, using Cost-Cost and Cost-Revenue Tests to allocate \$13 million in EPA Clean Water Act compliance costs; findings were adopted by the client in their argument against the proposed technology.
- Nonuse Valuation & Modeling: Engineered a stated-preference survey (choice modeling, branching logic) eliciting Willingness-to-Pay across seven environmental programs – 1,123 responses, 58% completion – cited in expert witness testimony; built econometric simulations in Analytica and Stata forecasting ecological impacts of power plant water usage.

Environmental Economics Services, LLC – Raleigh, NC

Sept 2025 – Feb 2026

Research Assistant (Contract Employee)

- Contributed to Dr. Rick Dunford’s Natural Resource Damages (NRD) textbook, validating economic accuracy across chapters on oil spills, wildfires, and hazardous releases.
- Regression Analysis: Updated regression models for past NRD case studies, supporting expert witness testimony and litigation damages assessments.

ADDITIONAL PROFESSIONAL EXPERIENCE

Standish Management – Raleigh, NC

Client Associate, Investor Relations (May '23 – Aug '25)

- Leveraged Alteryx for financial modeling and performance analytics across 15+ investment funds, including TrueBridge Capital (\$9.57B AUM), incorporating findings into quarterly financial reporting deliverables.

Obra Capital – Austin, TX

Associate, Investor Relations (June '22 – Nov '22)

- Developed financial forecasts and reporting for a \$6.9B platform across Special Situations, Longevity, and Real Estate Credit products; synthesized fund data into DDQs for institutional investors including sovereign wealth funds, insurance companies, and pension funds.

Third Bridge – New York, NY

Client Associate / Research Associate (Dec '20 – May '22)

- Promoted to Client Associate to direct a 4-person research team; managed 4–6 simultaneous due diligence research projects (3–5 week cycles) for PE and consulting clients including Bain Capital, Astorg, and BCG.

U.S. House of Reps. – Washington, D.C.

Legislative Research Intern (Rep. Moulton) (Aug – Dec 2018)

- Coordinated with utility executives to track infrastructure recovery post-gas explosion; developed data-driven restoration forecasts that informed Rep. Moulton’s constituent town halls.

TECHNICAL SKILLS & VOLUNTEER

Programming & Analytics: SQL, Alteryx, STATA, Python, Analytica, R, Advanced Excel, Jupyter Lab, VS Code

Survey Administration Platforms: Alchemer, User Interviews

CRM & Alternative Investment Software: Salesforce, Dynamo, Allvue, SS&C, Canoe Intelligence, Carta, iSquared

Volunteer: Eno River State Park (Conservation); TABLE Food Assistance
