EDUCATION

North Carolina State University – *Raleigh, NC*

Dec 2026

M.Sc. Economics (Dual concentration: Data Analytics, Natural Resource & Environmental Economics) | GPA: 3.9

- Thesis (In Progress): Researching differences in property value outcomes as a result of infrastructure mitigation versus institutional litigation in PFAS-affected communities across North Carolina.
- Prior Research – Spatial Effects of Water Infrastructure on Housing Markets (Dec 2025): Examined the capitalization of dam proximity into housing prices across 747 NC ZCTAs via a quadratic hedonic pricing model, identifying a statistically significant 22.3-mile amenity zone.

University of Virginia – *Charlottesville, VA*

2018

B.A. Economics | Minor: Philosophy | GPA: 3.5

RELEVANT ECONOMIC EXPERIENCE

Veritas Economic Consulting – *Cary, NC*

Sept 2025 – Present

Research Assistant (Part Time)

- **Strategic Consulting:** Authored a cost-benefit analysis for a prominent Chicago high-rise, utilizing Cost-Cost and Cost-Revenue Tests to allocate \$13 million in EPA Clean Water Act compliance costs across residential and commercial stakeholders, with findings adopted by the client in their argument against the proposed technology.
- **Economic Modeling:** Developed econometric simulations in Analytica and Stata to analyze power plant water usage and forecast ecological impacts on fish populations.
- **Nonuse Valuation:** Engineered complex choice modeling and branching logic for a stated-preference survey eliciting Willingness-to-Pay (WTP) across seven environmental programs, capturing 1,123 total responses (72/day) with a 58% completion rate — findings subsequently communicated by the firm's principal economist in expert witness testimony.
- **Survey Instrument Design:** Refined survey instruments through pilot testing and qualitative user interviews, optimizing information treatments to improve response validity for non-use demand quantification.

North Carolina State University – *Raleigh, NC*

Spring 2026

Graduate Teaching Assistant | EC 490 & EC 410

- Supported instruction across EC 490 (Senior Seminar) and EC 410 (Public Finance), grading assignments and directly mentoring undergraduates developing capstone research papers on topics including market strategy, externalities, and regulation.

Environmental Economics Services, LLC – *Raleigh, NC*

Sept 2025 – Feb 2026

Research Assistant (Contract Employee)

- Contributed to Dr. Rick Dunford's Natural Resource Damages (NRD) textbook in preparation for publisher submission, validating economic accuracy across chapters covering assessments for oil spills, wildfires, and hazardous releases.
- Regression Analysis: Updated regression models for past NRD case studies, ensuring the empirical foundations underlying expert witness testimony and damages assessments in litigation proceedings for elements in the textbook.

ADDITIONAL PROFESSIONAL EXPERIENCE

Standish Management – *Raleigh, NC*

May 2023 – Aug 2025

Client Associate, Investor Relations

- Leveraged Alteryx for financial modeling and performance analytics across 15+ investment funds, including TrueBridge Capital (\$9.57B AUM), incorporating findings into quarterly financial reporting deliverables.

Obra Capital – *Austin, TX*

June 2022 – Nov 2022

Associate, Investor Relations

- Developed financial forecasts and reporting for a \$6.9B platform across Special Situations, Longevity, and Real Estate Credit products.
- Synthesized fund data into Due Diligence Questionnaires (DDQs) for institutional investors (sovereign wealth funds, insurance companies, pension funds, and university endowments).

Third Bridge – *New York, NY*

Dec 2020 – May 2022

Client Associate / Research Associate

- Promoted to Client Associate to direct a 4-person research team, implementing strategic research frameworks.
- Continuously managed 4–6 simultaneous due diligence investment research projects (3–5 week cycles) for private equity and management consulting clients including Bain Capital, Astorg, and Boston Consulting Group (BCG).

U.S. House of Representatives (Rep. Seth Moulton) – *Washington, D.C.*

Aug – Dec 2018

Legislative Research Intern

- Coordinated with utility company executives to track infrastructure recovery post-gas explosion, developing data-driven restoration forecasts that informed Rep. Moulton's talking points for constituent town halls across the district.

TECHNICAL SKILLS & VOLUNTEER

Programming & Analytics: SQL, Alteryx, STATA, Python, Analytica, R, Advanced Excel, Jupyter Lab, VS Code, Power BI

Survey Administration Platforms: Alchemer, User Interviews

CRM & Alternative Investment Software: Salesforce, Dynamo, Allvue, SS&C, Anduin, Canoe Intelligence, Carta, iSquared

Volunteer: Eno River State Park (Conservation); TABLE Food Assistance
